How to use the "Commands and Announcements for Finals 2025"

Each script includes ALL commands of the Chief Range Officer (CRO) or Referee and the public announcements of the Finals FOP Announcer according to the official ISSF Rules and Regulation.

Each script is an XLS file and consists of 3 separate worksheets (for Shotgun only 2):
1) **Complete**
    - Here you find the complete overview with all necessary information and comments.
2) **CRO only** (Rifle/Pistol)
    - Here you find all the CRO commands, and the information when the Finals FOP Announcer will make announcements.
3) **Announcer only**
    - Here you find all the Finals FOP Announcer announcements (including "Welcome" and "Closing"), and the information when the CRO / Referee will make commands.

After you update the "**Scheduled Final Start Time**" into the first yellow box next to "Start" of the "Complete" worksheet to the correct time of the Final, all timings in all worksheets will be calculated automatically!!!
